

Canadian-Italian research partnership announced

An agreement between St. Boniface Hospital Research and the Università de Roma has been signed initiating the Canadian-Italian Tissue Engineering Laboratory within the Institute of Cardiovascular Sciences.

Signed recently at the Residence of the Ambassador to Italy in Ottawa, participants (pictured above, L-R) included: His Excellency Andrea Meloni, Ambassador of Italy in Ottawa; Mr. John Clarkson, Manitoba's Deputy Minister of Science and Technology, Energy and Mines; Dr. Grant Pierce, St. Boniface Hospital Executive Director of Research; the Honourable Tony Clement, Canada's Minister of Industry.
