

Jassal makes WRHA Wave

[Dr. Davinder Jassal](#), Principal Investigator of Cardiovascular Imaging, Institute of Cardiovascular Sciences, Associate Professor of Medicine, Radiology and Physiology at the University of Manitoba's Faculty of Medicine, and Medical Director of the Winnipeg Health Region's Coronary Care Units, is featured in the July/August 2012 issue of Wave.

The 7-page article, entitled "Damage Control", regards Dr. Jassal's research into the detection of cardiac injury caused by drugs used to fight breast cancer, and his efforts into stopping those drugs from damaging the heart.

Wave is Winnipeg's health and wellness magazine, published by the Winnipeg Health Region in cooperation with the Winnipeg Free Press.
