

Canada's business leaders visit Centre

Participants in the Governor General's Canadian Leadership Conference toured the St. Boniface Hospital Albrechtsen Research Centre this morning. The tour was hosted by [Dr. Bram Ramjiawan](#), Director of Research, Asper Clinical Research Institute and Director of Research Innovation and Regulatory Affairs at St. Boniface Hospital.

The Governor General's Canadian Leadership Conference was created to broaden the perspectives of future leaders in business, unions and public administration so that their decisions are based on a practical understanding of the influence of their organizations on the general welfare of the community. Its members come from different regions of Canada, different perspectives and different careers. All members are high potential individuals expected to achieve senior leadership positions in their organizations and communities.

Members toured the IH Asper Clinical Research Institute, the [Institute of Cardiovascular Sciences](#), and the [RBC Youth Biolab Jeunesse](#).
