

President's Student Leadership Program

PhD students Kevin Boreskie and Jacqueline Hay, Faculty of Kinesiology and Recreation Management and part of [Dr. Todd Duhamel](#)'s research group in the [Institute of Cardiovascular Sciences](#), were among twenty-seven successful candidates from across Manitoba selected to participate in the first cohort of the University of Manitoba's President's Student Leadership Program.

The President's Student Leadership Program is unique in Canada and is strategically important for Manitoba's business community and economy, aiming to develop future leaders in various sectors for the province. Jacqueline and Kevin are both examining the role of physical activity and

cardiovascular health.

Congratulations Kevin &
Jacqueline!
