Invest, by Learning from the Best!

Project Management

Leslie Lindberg

March 11 & 12, 2009

As you progress in your career, you will face more and more complex and difficult challenges. Some of these may be huge – they may involve the coordination of many different people, the completion of many tasks in a precise sequence, and the expenditure of a great deal of time and money. **Project Management** is concerned with the overall planning and co-ordination of a project from inception to completion aimed at meeting the completion date on time, within cost and to required quality standards. It is the discipline of defining and achieving targets while optimizing the use of resources.

Teleconferences & Web Seminars

LSAM also encourages participation in weekly online training. Check our website often to see what is available. Seen a Great up-coming **teleconference/web Seminar**? Let us know and we can arrange for your participation. (204) 942-3830
