

“I do Research” hits IMAX screen!

“I do Research”, a 60-second video featuring the hidden talents of 40 researchers, technicians and clinicians, hit the big screen recently – doing “warm-up act” duty for the film “Born to be Wild 3D”, current feature presentation of Winnipeg’s IMAX Theatre.

The 60-second short video was produced by St-Boniface Hospital Research’s “Research Pictures”, and offshoot of the Communications & Media Services department – written/directed by Bill Peters, with video & editing by Rob Blaich.
